

ATTENTION! ALL MARINA USERS

North Pier Construction

Important Safety Information

You will be aware that construction has commenced on our North Pier project. Preparatory work has been under way for some weeks along the Northern breakwater with pile driving and other activity.

- Very soon a **large construction barge** will arrive and work will begin on the new breakwater creating **potential hazards** for vessels navigating the **Marina entrance**. We ask you to take **special care** at the entrance once this work begins.
- It is expected the barge will arrive in the **last week of February** with work scheduled to begin on **3rd March**.
- The image below shows the approximate initial position of the barge but **this may vary**.
- This is a preliminary notice. We will keep you all fully informed throughout the construction period.

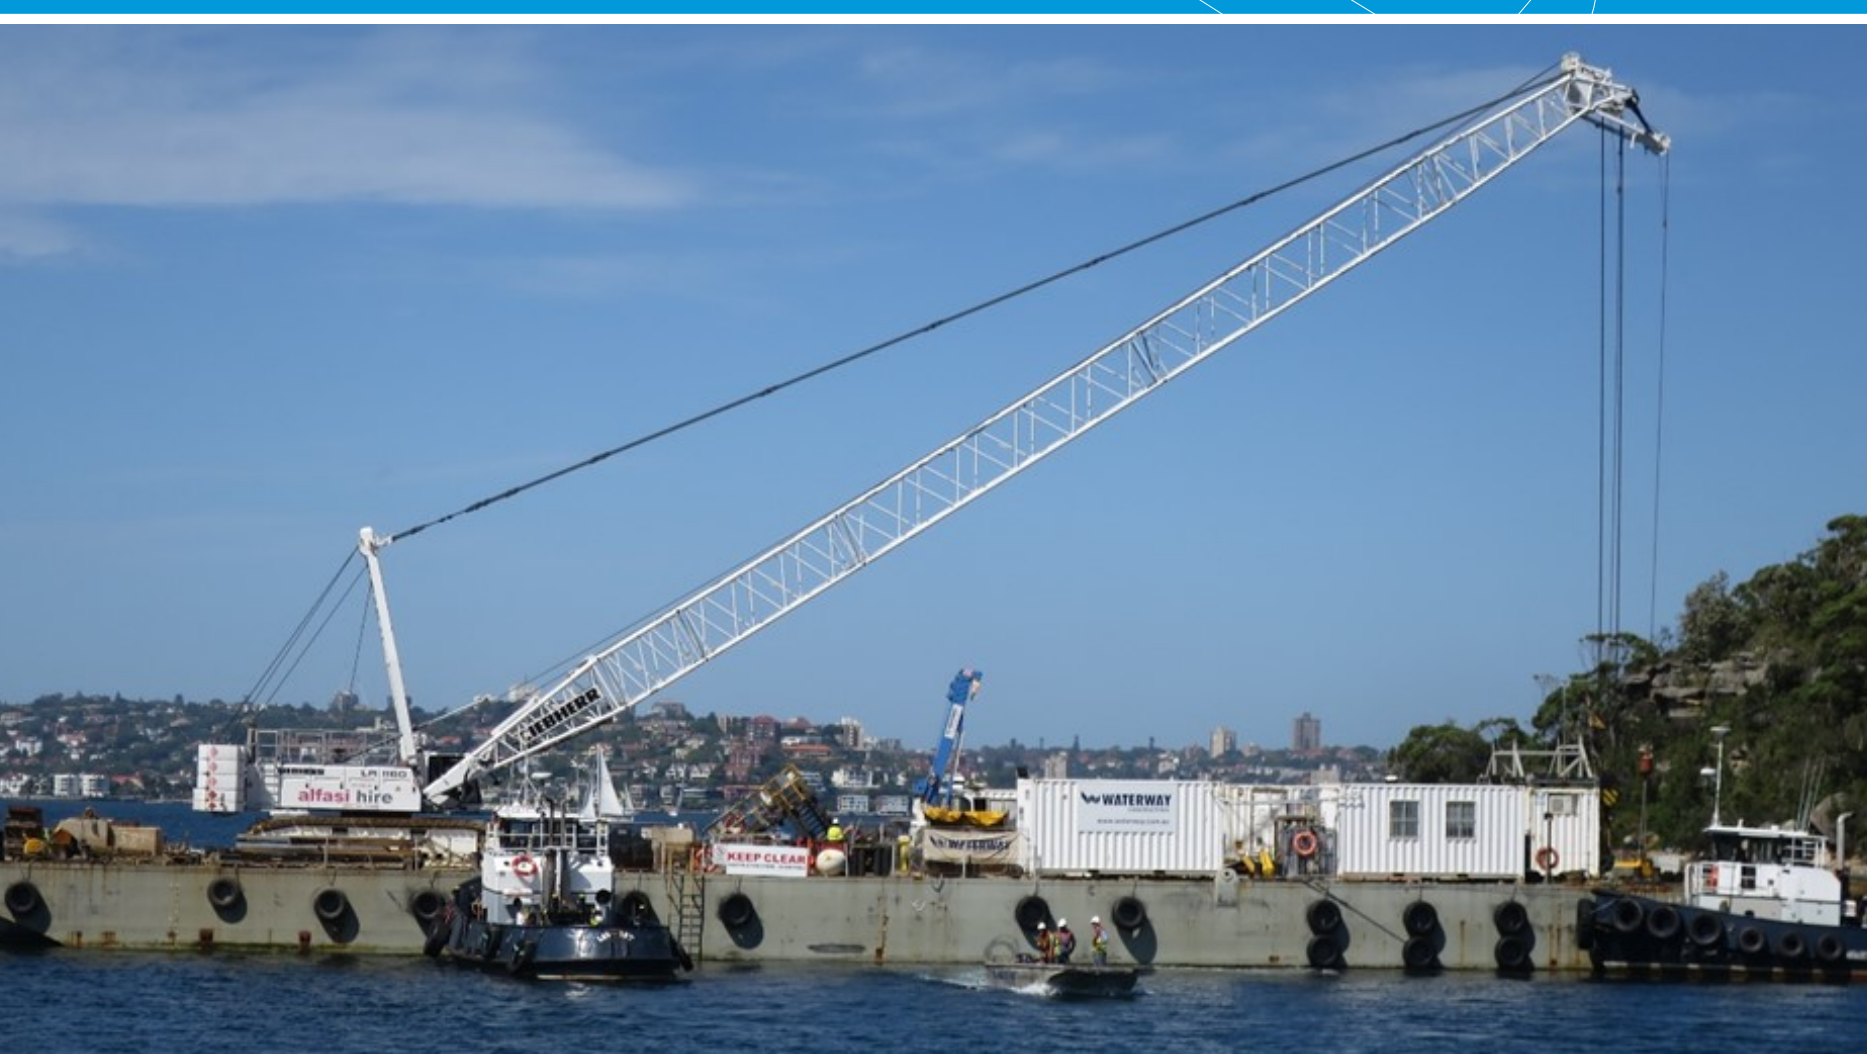

Other points to note:

- The construction barge will remain on site for approximately four months.
- As a general safety recommendation we suggest extra care be taken within the Marina, maintaining a strict starboard position in the fairways.
- A second dredging barge is also working in the area.

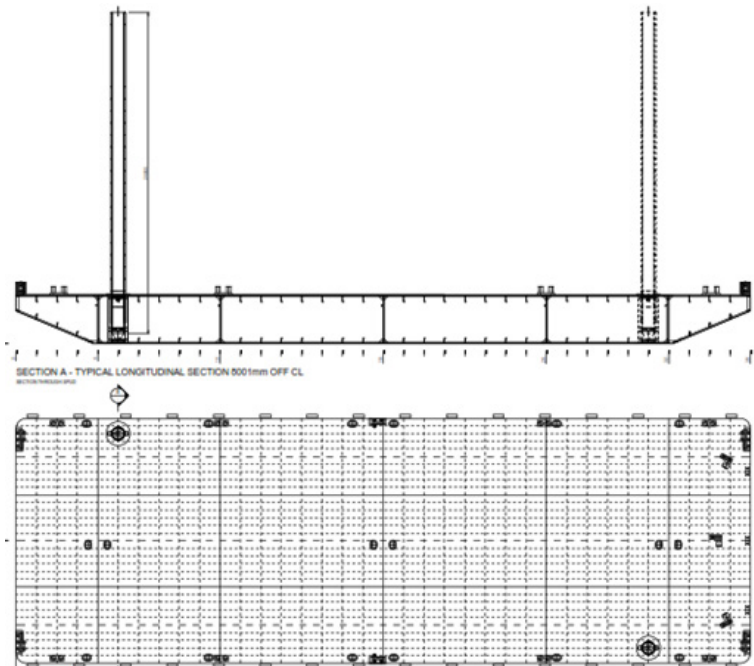

We thank you for your patience.

CALLIOPE

Construction Piling Barge

Name:	Calliope
Type:	Construction Piling Barge
Class:	ABS
Operator:	Heron Construction Company Ltd
Official Number:	860169
Year Built:	2011
Gross tonnage:	942 GRT
Nett tonnage:	277 NRT
Displacement:	522 tonne
Dead Weight:	2175 DWT
Length overall:	54.88
Breadth:	18.30m
Depth:	3.66m
Draft (light ships):	0.60m
Max Draft:	2.86m
Deck Loading:	15 T/m2
Crane Capacity:	Max 250t crawler
Facilities:	1 x 20' Workshop 1 x 20' Stores/DG locker 1 x 20' Office 1 x 20' Lunchroom 1 x 20' Toilet/shower
Spuds:	2 x 914 ^{OD} x 20wt x 20m long
Mooring Winches:	4 x 15 tonne electric mooring winches 250m of 32mm wire rope.
Black Water:	4500 litres
Potable Water:	4500 litres
